Re: Interim Significant Source Modification Petition
I-091-14688-00020

Dear Thomas O. May:

On July 24, 2001, the Office of Air Quality (OAQ) received an interim significant source modification petition from Weil Mclain, A United Dominion Company located at 500 Blaine Street Michigan City, Indiana 46360, for construction of one crusher, one rotary reclaimer, one sand and metal conveyor, one 100 ton spent sand silo, and one 60 ton raw sand silo at their foundry operation.

Public notice of the interim significant source modification petition was published on July 31, 2001. The public comment period ended on August 14, 2001. Since there are no comments received during the public comment period, pursuant to 326 IAC 2-13-1(i), the interim significant source modification petition is in effect on August 17, 2001 and expires on the effective date of the final significant source modification permit. The interim significant source modification petition may be revoked after this effective date upon a written finding by the Indiana Department of Environmental Management (IDEM) that any of the reasons for denial in 326 IAC 2-13-1(h) exist or if the final significant source modification permit is denied. The IDEM has reviewed this interim significant source modification petition and has not found any such reason. The facilities specified in the interim significant source modification petition may not operate until the final significant source modification permit is issued by OAQ.

The interim significant source modification petition is federally enforceable. Detailed construction and operation conditions will be specified in the final significant source modification permit 091-14688-00020.

If you have any questions regarding this interim significant source modification petition, please contact Gurinder Saini of my staff at 317-233-0203, or at 1-800-451-6027 (ask for extension 3-0203).

Sincerely,
